The Intuitive Tool of the Future

This is the complete keyword listing of all currently available Oracle-X cards as at 30 June 2012.

The last column is for you to use if your intuition is giving you another word or word(s). The space allows you to customise that card by simply adding that word(s) into the space provided. Thereafter, if used, this gives you an eighth secondary keyword(s) to use in conjunction with those already supplied. Remember that Oracle-X is your personal deck, and the choice whether or not to customise is entirely yours.

The cards listed on this side of the leaflet are included within every deck (30 cards). The deck also contains a further 6 cards from those listed on the reverse of this leaflet. Every Oracle-X box is guaranteed to be unique and therefore personally yours. As you intuition grows, and if required, you can purchase additional cards from selected retailers, or direct from [www.oracle-x.com](http://www.oracle-x.com)

Oracle-X is fully customisable, and owners will be able to build their ideal deck from a library of 780 cards that will be published over the next few years. It is not recommended that owners attempt to purchase every card, but rather to shape their deck according to their needs. Oracle-X is able to grow alongside with you, allowing you to add new and appropriate cards as the circumstances within your life change.

Full guidance and further help can be found on the Oracle-X website.
